No.Y.3.269/51 dated 31/3/51.

Sir,

SUB: Agriculture - Cotton - Grown at the Agricultural Research Station - Hagari - Ginning of kapas - Payment of insurance charges sanction requested.

In his notes of inspection of the accounts of the Agricultural Research Station, Hagari, the Assistant Accounts Officer has pointed out that an expenditure of Rs.3/- has been included in a voucher dated 10/5/48 of the station for paying insurance charges on cotton kapas sent for ginning and that such expenditure is not admissible. I find that the practice of insuring the kapas has been in vogue for a long time and the following expenditure there has been incurred during the last five years.

Year	Number of Borahs taken for ginning.	Quantity of lint got in lbs.	Insurance charges paid.
			Rs.
1945	16	3669	8-0-0
1946	10	1750	5-0-0
1947	3	1841	1-8-0
1948	16	4154	8-0-0
1950	13	3841	6-8-0

During 1949 the insurance charges have been included in the ginning charges and no separate figure is available on the insurance charges if any paid.

2. The Superintendent, Agricultural Research Station, Hagari explains that it takes two or three days for the ginning to be completed. During this period the Borahs of kapas are kept in the ginner's premises. The Superintendent, Agricultural Research Station, Hagari states that it is necessary to issue these kapas. It is one thing if, during the interval of two or three days taken up for ginning, the kapas are stocked in a Government building. But in the present case, for a small fee of eight annas per borah, the ginner takes full responsibility for the kapas belonging to Government retained in his godown and in cases of loss by fire he would make good the loss. The procedure of insuring kapas sent for ginning is generally followed by all the parties in the area. In the circumstances I request Government to ratify the action of the Superintendent, Agricultural Research Station, Hagari in having incurred the expenditure. I also request that sanction may be accorded for incurring in future an expenditure of eight annas for insuring each borah of kapas sent for ginning.

Ref:- Government Memo 25360 K/51-1 dated 16-4-51.

Government sanction for payment of insurance charges has been sought for only because this is not envisaged in Article 319 of M.F.C. Vol.I. The justification for this expenditure is explained in para 2 of my predecessor's letter Y.3.269/51 dated 31-3-51.

The sanction now sought is only in respect of the Agricultur Research Station Hagari. Such situations have not so far been met with at other stations. It does not seem desirable to give a general sanction in this regard for all stations and each case may be dealt with on its merits.
